We will still be giving away backpacks and school supplies as they come in from all over the country. If your church or business has not donated yet, please don't hesitate there is still time! It is going to get a great event of fun and community building, but most importantly, praying over our families for safety and provision this coming school year.

SUMMER PROGRAMMING

Smart Kid Summer is a Screaming Success! Our students learned the life of Joseph over the course of the 6 weeks. They applied this story to their lives by understanding that no matter what God is working on their behalf. 6 students decided to give their lives to Christ! Every student was given a bible to take home with them.

Students also enjoyed engaging in "hands on" math and science activities. In our reading center every student read at least 20 books and many students raised their reading level by 3 levels.

We also learned about Entrepreneurship. Our students applied this knowledge by starting a lemonade stand. They took this seriously and made \$300 over 2 days and were inspired to start their own businesses.

Lastly, we had the privilege of hosting several missions teams. We believe that each of these teams were positively impacted and increased their heart for missions. ~Pastor Shelby

MISSIONS IS KEY

Missions is the foundation of everything we do in Cleveland. It's missions support that keeps us on the ground and doing the work in the Learning Center, Church and Tavern. THANK YOU to all the churches and individuals that faithfully support our mission. Since the pandemic we have experienced some shortfalls and need to expand our support base. Please help us grow our network by sharing our mission with family, friends, churches and businesses. Anyone that wants to see lives in Cleveland transformed can help. Thank you. ~PB

Summer is always a huge way TMPLC comes alongside our community!

Pastor Shelby and her team have done a fabulous job this Summer! With more choices and activities this year than any other. TMPLC has worked to continue a seamless transition into Summer from our Learning Pods. ~Judy
